Mr. Abraham Manley
Newark, N.J.

Dear Sir;

I rec'd your letter of Feb. 23 and have been busy trying to make it possible for your team to train here this spring. I have been successful in the attempt. I have been promised by the Athletic Commission here the use of the park, and the Club house with all its accommodations. That is, lockers, rub down tables, and showers. The Minneapolis Millers will begin training in the next few days, and they will close April 2, and the park will be available April 3. You said your 1st 10 men will leave the last of March, and the others will follow in about two weeks. So this should catch you just about right.

I shall be glad to hear from you right away and know what your plans are, so we can get to work. You can get a very good schedule of exhibition games for your training.

Yours very truly

Dr. J. L. Slack
